StayNexaAI
SMART STAYS • BETTER JOURNEYS

SMART STAYS. BETTER JOURNEYS.

Find your kind of stay.

A more personal way to discover accommodation - based on your budget, preferences and the details that matter to you.

DISCOVER A BETTER MATCH

THE CHALLENGE

Too many tabs. Inconsistent listing details. Filters that miss the feeling or priorities behind a trip.

A SMARTER APPROACH

Tell StayNexa AI what you need. The concept combines accommodation information and personalized ranking to help make choices clearer.

SEARCH THE WAY YOU THINK

“Find me a peaceful beachside stay in Goa under ₹5,000 with good Wi-Fi and parking.”

Example request from the proposed product experience

BUILT AROUND WHAT MATTERS TO YOU

Personalized

Recommendations shaped around your needs

Convenient

Less time spent comparing listings

Transparent

Clear reasons for each suggested stay

StayNexa AI is an early-stage concept. Features are proposed and subject to validation.

StayNexaAI
SMART STAYS • BETTER JOURNEYS

YOUR PREFERENCES. YOUR KIND OF STAY.

A simpler way to choose.

HOW THE EXPERIENCE IS DESIGNED TO WORK

01 Describe

Share destination, budget, atmosphere and must-have amenities.

02 Understand

AI interprets the intent behind the request.

03 Compare

Permitted-source listing details are standardized for comparison.

04 Explain

Ranked options show why they may match your needs.

ONE IDEA, MANY TYPES OF STAYS

Hotels | Resorts | Hostels | Homestays | PGs | Rentals

DESIGNED AROUND FOUR PRINCIPLES

- **Personalization**
  Use a Stay Profile for preferred budgets, destinations and amenities.
- **Convenience**
  Reduce repeated comparison across fragmented listings.
- **Transparency**
  Show the reasons behind a recommendation.
- **Trust & privacy**
  Use preferences responsibly and rely on permitted information sources.

THE PEOPLE BEHIND THE CONCEPT

AY — Avanishkumar Yadav — Founder / Project Lead

CR — Chirag Raut — AI / Technology Lead

NS — Nitesh Semwal — Product & Operations Lead

AT — Avinash Thakur — Marketing & Partnerships Lead

MORE TRAVEL. LESS SEARCHING.

Proposed model: free core discovery, with potential booking/affiliate commissions, provider partnerships and optional premium AI planning.
